

"Given our long-standing relationship with the National Safety Council, we couldn't be more pleased that ICertainty is working with NSC to share Disney's technical expertise combined with ICertainty's innovative technology platform to help make our world a safer place."

GREG HALE
CHIEF SAFETY OFFICER
AND VICE PRESIDENT
WORLDWIDE STANDARDS AND AUDITING
WALT DISNEY PARKS AND RESORTS

NSC Navigator is delivered to you through cloud computing, so all your data and applications reside on the Web. That means you get software updates and program enhancements immediately – whenever you log in, you'll always be working with the most current content NSC offers and always have all the latest functionality from ICertainty.

NSC NAVIGATOR

POWERED BY ICERTAINTY

Be safer. Be smarter. Be sure.

NSC Navigator is a game-changing safety performance solution that will transform the way you manage your safety system and improvement process. Built on tested and trusted National Safety Council content and powered by patented ICertainty technology, NSC Navigator is the most accurate, on-demand safety solution you can get.

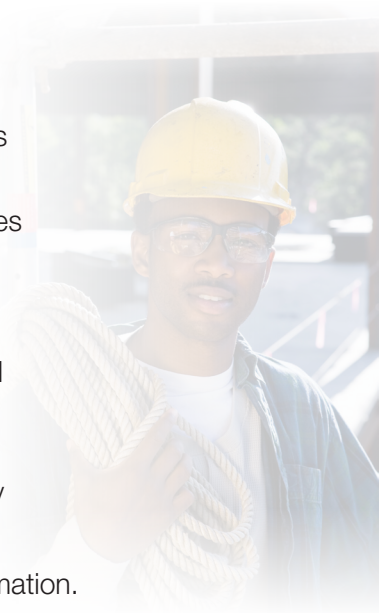

With NSC Navigator, you can:

- Automate your OSHA 300 logs and other vital records
- Access your **safety data on demand** – from your desktop, laptop, tablet or mobile device
- Schedule and manage employee safety training from a single point
- Keep track of all your safety activities in one place
- Quickly spot trends, concerns and opportunities to improve
- Capture and report hazard, near miss and incident data right from the field
- Conduct thorough root cause analysis, improve systems and manage corrective actions
- Have clear oversight of workplace safety audits, inspections and corrective actions
- Easily integrate different reporting systems from multiple sites
- Track compliance status in multiple locations

Safety on demand

Use your *Droid* or *Blackberry* to gather critical data quickly and precisely; then instantaneously send it to your NSC Navigator, updating your safety metrics and dashboards automatically. For the first time, essential safety information can move directly from the field to your safety management system.

Call (800) 672-4692 or visit ncs.org/navigator for more information.
